Holly Webb

isolved Solution Consultant

The Situation

According to isolved survey data, the Great Resignation that started in 2021 may impact 2023 as well, causing strain on employers' ability to keep up with the demands of running a business with limited staff. It is also stretching the current labor force thin and placing a burden on HR to replace workers within shortened timelines.

49% of employees say they plan to explore their options in 2023

The Solution

Applicant tracking software streamlines the hiring process and creates a seamless candidate experience. Investing in this technology is another area of opportunity and a way for you to gain a competitive advantage in a tight labor market.

With Attract & Hire, you can streamline candidate hiring, convey a positive employee experience, and impart the culture and values of your organization.

Attract & Hire

Features & Benefits

Whether you want to scale your team quickly, source remote candidates or reach diverse talent, Attract & Hire enables you to quickly locate, interview and onboard the best-fit candidates for your organizational needs.

CAPABILITIES

- Branded career pages
